

ARUNDEL FIRE-RESCUE CHIEF'S REPORT

BRUCE E. MULLEN, CHIEF

The Arundel Fire-Rescue has been quite busy in the last year, especially after the first of the year. The number of major incidents in the local area Towns has been higher than most years. With all the flu's and illness this winter, the request for the Ambulance has also increased.

The Per Diem Employees provide 24 hour coverage all year long. We have some of the best trained personnel that provide service to the Town. The Department also has an educated and dedicated Call Force. Along with responding to Emergency's, these people attend trainings, meetings, special details, they also do Fire Prevention, Inspection, Vehicle and Equipment checks, and other duties as needed.

Burning permits are required all year long and may be obtained at Arundel Central Station, 468 Limerick Road, when conditions are safe for burning.

Working with the Town Manager, Selectmen and Budget Committee we kept our budget to a minimum increase.

Please make sure your street numbers are on your house and visible from the street. If your home can not be seen from the street, please also post your street number at the end of your driveway. This way we will be able to locate you as quickly as possible.

I want to thank the Fire-Rescue Officer's and personnel for all their dedication to the Arundel Fire-Rescue. Many times their families are the ones who miss out on their presence, when they are helping people in their time of need.

On behalf of the Arundel Fire-Rescue and Myself, I want to thank the citizens, Selectmen, and Town Employees for their continued support and assistance. Without all the

support it would be at times difficult to do what we do. We at Arundel Fire-Rescue through many hours of training and dedication continue to provide the best service we possibly can.
