

APW Department Report

This past winter started with a lot of rain but soon turned to snow and kept us really busy. The continuous snow has been a burden on all aspects of the budget and used any reserves of material that we had accumulated. Tree work and some brush cutting were done prior to major storm events.

Last year's Paving Projects included a section of River Road, North Skillings Road and a section of Proctor Road. Several larger culverts were relined which included River Road, Old Post Road and Limerick Road.

This year's Paving Projects will include Thompson Road, Days Mill Road and a section of Mountain Road. Several larger culverts will also be relined on Lombard Road and Limerick Road.

Road Crew

Terrence Merrill – Road Foreman
Brian Boissonneault – Mechanic
Ron Boulay – Driver/Laborer
Craig Turner – Operator
Matt Wyman – Driver/Laborer

Respectfully Submitted,
Roger A. Taschereau
Arundel Public Works Director
