Street Design and Construction Standards- September 11, 2018

People Present: Tom Danylik, Tad Redway, Roger Taschereau, Terry Merrill, Phil Labbe, Keith Trefethen, Mark Welch, Chip Bassett, Sue Roth

Meeting began @ 7:00PM

The Town Planner provided a combined Street Design and Construction Standards Ordinance Version 4.0 along with Road Construction Standards Table A, Table 2.2 Private Way Standards and a comparative Road Design standard spread sheet of neighboring communities which was used to review materials.

The group spent most of the time reviewing the draft ordinance from the beginning up to Page #10 of Version 4.0. Page #11 thru #17 has yet to be viewed again. The group decided that an additional draft will be developed by the Planner taking into the account of the changes agreed to today. This draft will be sent to all members of the group on or around Friday the 21st of September. The Group will meet again on Tuesday September 25, 2018 to pick up on Page #11 2.0 Private Ways and complete the review of the document. If time allows a review of the changes agreed to from this evening will be reviewed as well. The Hope of the Committee is that we are very close to sending these materials onto the Planning Board in order to coordinate a Public Hearing

Meeting concluded @ 9:15PM
